

## **Buddhist Pine** Care Instructions

**Botanical Name:** *Podocarpus macrophyllus*

**Light:** Direct to bright light. Plant will become bushy if in bright light. The needles will shed if in low light. In the Erie area, they really need to be placed directly in front of a bright window. South or West window preferred.

**Water:** Thoroughly when barely moist and needles feel slightly limp.

**Temperature:** Dislikes warm temperatures

**Fertilizer:** Once every two weeks April - September.
