

## **Corn Plants** Care Instructions

Botanical Name: *Darcaena Fragrans Massangeana*

This plant has broad strap-like leaves. Depending on the type, the leaves will either be glossy and dark green (Janet Craig), or have silver-gray stripes (Warneckii). Fortunately, this plant is easy to care for and can recover quickly from damage or over watering.

**Light:** Bright, indirect light.

**Water:** Moisten entire root mass thoroughly (3 quarts every 14 days). If placed in window, use 4 quarts every 7 days.

**Temperature:** Room temperature between 55-75 degrees is best.

**Fertilizer:** Feed regularly as per instructions on fertilizer during active growing period.
